

Wrinkles “are not beautiful” and we should treat them.

For this reason, Palm BX is the right treatment to prevent, smooth and even eliminate deep wrinkles produced by photo aging.

Its ingredients are Acetyl Hexapeptide 8 (derived from botulinum toxin) and elastin (flash effect).

Palm BX acts on:

- . Relaxing the muscle in a natural way.
- . Reducing and smoothing wrinkles.
- . Preventing from future wrinkles.
- . Improving the skin texture.
- . Brightening the skin.
- . Restoring the skin elasticity.
- . It can be used to help injected Botox treatment.

Presentation : 30 ml.
