

CERTIFICATE OF ANALYSIS

CLOFAZIMINE

TEST	REQUIREMENTS
Appearance	Reddish brown fine powder
Solubility	Practically insoluble in water, very slightly soluble in ethanol(96%) , soluble in methylene chloride
Identification	
a) IR absorption spectrum	Corresponds to the comparison
b) TLC	Corresponds to the comparison
Colour Development Test	Violet colour produced changes to orange red.
Related substances by HPLC	
Impurity A	Not more than 0.1%

Impurity B	Not more than 0.3%
Any other impurity	Not more than 0.1%
Total impurity	Not more than 0.5%
