

ARTICULATED BEDS=> Electric beds

❖ Elita Evo Standard

Benefits

- Steel structure with EPOXY coating
- Electrically operated three articulations and four planes of 90 x 190 cm
- X-type elevation carriage, providing higher stability to the whole
- Supporting capacity up to 175 kg
- Elevation from 40 up to 80 cm
- Low voltage, end position-switch off motors:
 - One motor allowing regulation of bed height.
 - One dual motor under the base/deck performing the articulation of the planes.
- Individual braking system
- Incorporated function control
