

CIDOMIX

Acidifier premix – Phosphorus source.

COMPOSITION:

Orthophosphoric acid	415.50 g
Citric acid	10 g
Fumaric acid	7.66 g
Mineral carrier ad	1 000 g

ACTION:

CIDOMIX is a feed additive premix with intestinal acidifying capacity.

Its use is indicated in substitution - partially or completely - of antibiotic growth promoters.

It prevents intestinal infections and diarrhoea and is therefore recommended in piglets at weaning.

The product does not produce residues in meat, eggs nor milk, consequently it may be used to prevent intestinal processes during the withdrawal period of antibiotics, during lactation and to improve intestinal sanity in laying hens.

DOSE and Instructions for USE

Homogenise with the feed ingredients at the mixing unit.

Milk replacers	:	1.5 - 2	Kg/MT
Piglets	:	1 - 1.5	Kg/MT
Pigs	:	750	g/MT
Ruminants	:	750	g/MT
Rabbits	:	750	g/MT
Poultry	:	750	g/MT

There are no Regulatory limits on maximum dosage.

In total substitution of growth promoters, doses increase up to 4 kg/MT.

STORAGE:

Store in a cool, dry place protected from light.

PRESENTATION: 25 kg bag.

REGISTER No.: 1907 – CAT
