Vitamin B12	15	mg
Nicotinamide	8	g
Pantothenic acid	8	g
Solvent ad	1000	ml

SPECIES and INDICATIONS:

POLI-HEPAVIT is indicated for poultry, ruminants and rabbits as a supplement of vitamins and aminoacids in states of deficiency or subdeficiency, and in post-infectious states. Due to its formulation, amino-acid and vitamin B proportions, a specific hepato-protecting function is acquired.

INSTRUCTIONS FOR USE and DOSE:

Administer in the drinking water at the dose of : 2 ml/l.

BENEFITS:

This product stimulates the metabolism of lipids and fat acids in order to ensure the energy liberation towards the cells. This fact avoids the accumulation of these components in the adipocytes and the non desirable fat deposit.

It improves the digestion and protects the enzymatic power of the liver.

It stimulates the toxin elimination.

It offers an easy economical manipulation.

STORAGE:

Store in a cool, dry place protected from direct sunlight.

PRESENTATION: 1 and 5 l.
